## Eastside Building Health and Safety

There will be a short meeting in the library after the worship service on **December 8** for everyone that wants to serve on the Health and Safety team. Please see Andrew Woodason if you have any questions.

Our church collected about 40 articles of clothing for DeVaney Elementary. When they were delivered, the nurse was blown away and expressed the need to use some of the clothes to fulfill some Christmas sponsor shortfalls they were having. They had been worried that they wouldn't be able to sponsor some of the children. That worry is no longer there!

“I wanted to share how awesome our church was in reacting to that clothing drive. We're not always good about following up with ‘what went right’”.  
 Amy Haworth

**Judy Givens** has been hospitalized again for failing health. Her condition is worsening and the doctors are limited by her other health problems on what they can do. They will continue to offer treatments as she can receive them. Also, pray for Denny and family during this difficult time. Judy is in room 2146 at Union.

**Lisa McElhiney**, Emily Karaff's cousin, has had heart problems for several years and has recently been experiencing more symptoms. Please be praying for answers.

**Larry Shepherd** is in the hospital with kidney failure and possibly cancer. They are looking at removing a kidney and prostate, but he is currently on a vent and not strong enough to go through surgery. (Submitted by Samantha Wray.)

**Angela Tackitt** and family are traveling to Baltimore this week to consult with a renowned doctor who treats severe autistic cases. They are hoping that his treatments will be able to help Trenton.

**Reflecting His Light**

Urbain Jean Joseph Le Verrier (11 March 1811 – 23 September 1877) was a French astronomer and mathematician who specialized in celestial mechanics and is best known for predicting the existence and position of Neptune using only mathematics. Le Verrier observed slight irregularities in the orbit of the planet Uranus. He surmised that this must be due to some unknown influence or attraction. Searching for the attractive force led him to discover a formerly "invisible" planet, Neptune.

What does this have to do with us? Brothers and sisters, here's the point: If we, as individuals and as a church, are truly being influenced by our association with Christ, people will notice a difference in our lives and curiously investigate what the cause might be.

You have perhaps read many times the words of Jesus recorded in Matthew 5:14-16. Please read them once again in the context of what we are here studying. Jesus said, "You are the light of the world. A city that is set on a hill cannot be hidden. Nor do they light a lamp and put it under a bowl. Instead they put it on its stand, and it gives light to all who are in the house. Let your light so shine before men, that they may see your good works and glorify your Father in heaven."

Light doesn't have to draw attention to itself—it is self-evident. Just so, as your life orbits around Christ you reflect His light into a world darkened by sin. People who observe the difference in your life will wonder what it is that makes you different. This curiosity may well lead someone to discover the One whose Light you are reflecting.
